

GENERAL DEBT SERVICE FUND 2012-2013

The General Debt Service Fund is used for the accumulation of resources for payment of general long-term debt principal and interest. Resources include an applicable portion of the ad valorem tax levy and related interest income usable from debt service. Funding of the General Debt Service Fund is made on a conservative basis of estimating the collectable portion of the tax levy. From this collectable portion, an allocation of available funds is made between General Fund operating revenue and General Debt Service Fund.

DEBT MANAGEMENT

- A. Debt Issuance.** The City will issue debt only for the purpose of constructing capital assets or purchase of capital equipment for the general benefit of its citizens and to allow it to fulfill its various missions as a city. Debt may be issued for the purposes of purchasing land or rights-of-way and/or improvements to land, for construction projects to provide for the general good, or for capital equipment.
- B. Types of Debt.**
- 1. General Obligation Bonds (GO's).** General obligation bonds are not to be used to fund operation needs of the City. GO's may be used only to fund capital assets of the general government and are backed by the full faith and credit of the City as well as the ad valorem tax authority of the City. General obligation bonds must be authorized by a vote of the citizens of the City of Bedford.
 - 2. Revenue Bonds (RB's).** Revenue bonds may be issued to provide for the capital needs of any activities where the capital requirements are necessary for continuation or expansion of service which produces revenue and for which the asset may reasonably be expected to provide for a revenue stream to fund the debt service requirements.
 - 3. Certificates of Obligation (CO's).** Certificates of obligation may be used in order to fund capital requirements that are not otherwise covered under either revenue Bonds or General Obligation bonds. Debt service for CO's may be either from general revenues or backed by a specific revenue stream or streams or by a combination of both. Generally CO's are used to fund capital assets where full bond issues are not warranted as a result of the cost of the asset(s) to be funded by the instrument.
 - 4. Contractual Obligations (COB's).** These are designed as a low cost alternative to lease/purchase of equipment. They may be used solely for

acquisition of Personal Property. Multiple acquisitions may be grouped in a single issue, and the debt is financed over the useful life of the assets.

5. Method of Sale. The City may use a competitive bidding process in the sale of bonds unless the nature of the issue warrants a negotiated bid. In situations where a competitive bidding process is not elected, the City may publicly present the reasons why, and the City may participate with the financial advisor in the selection of the underwriter or direct purchaser.

a. Bidding Parameters. The notice of sale may be carefully constructed so as to ensure the best possible bid for the city, in light of the existing market conditions and other prevailing factors. Parameters to be examined include:

- Limits between lowest and highest coupons
- Coupon requirements relative to the yield curve
- Method of underwriter compensation, discount or premium coupons
- Use of bond insurance
- Deep discount bonds
- Variable rate bonds
- Call provisions

C. Analysis of Financial Alternatives. Staff may explore alternatives to the issuance of debt for capital acquisitions and construction projects. These alternatives may include, but are not limited to:

1. Grants in aid
2. Use of reserves
3. Use of current revenues
4. Contributions from developers and others
5. Leases

D. Disclosure. Full disclosure of operations may be made to the bond rating agencies and other users of financial information. The City staff, with the assistance of financial advisors and bond counsel, will prepare the necessary materials for presentation to the rating agencies. They will aid in the production of Official Statements and take responsibility for the accuracy of all financial information released.

E. Federal Requirements. The City will maintain procedures to comply with arbitrage rebate and other federal requirements.

F. Debt Limit. The State of Texas limits the ad valorem tax rate to \$2.50 per \$100 valuation. The City of Bedford's 2011-2012 proposed tax rate as presented falls well below this limit.

G. Bond Ratings. Bedford's bonds currently have the following ratings:

General Obligation Bonds	AA	(S & P)
Revenue Bonds	AA	(S & P)

These ratings directly affect the cost of debt. The City's policies are focused on issues that maintain high bond ratings and keep debt costs reasonable.

The Grand total of all bonds for the City of Bedford is \$60,265,000. This includes a new issue approved on September 11, 2012.

Details are on the following pages and will highlight the debt issues with schedules and graphs.
